## What is the FirstChoice™ Pharmacy Network?

FirstChoice is the preferred pharmacy network of Imagine360Rx. You'll find reduced prescription costs at network pharmacies that generally offer a lower cost on medications than a standard (non-preferred) pharmacy. The network consists of independent, community pharmacies as well as well-known regional or national chains. Participating pharmacies are approved to fill a 90-day supply of medications. Specialty medications are limited to a 30-day supply.

## What is Variable Copay™?

### Unlock BIG SAVINGS On Brand and Specialty Drugs

Variable Copay utilizes manufacturer-provided coupons to significantly reduce the cost on eligible high-cost brand and specialty medications. With Variable Copay, your out-of-pocket costs for prescription drugs may be reduced or eliminated by a drug manufacturer's coupon.

Your medications will arrive at your doorstep monthly via a shipping courier (UPS, FedEx, DHL) approximately 5-7 days before your current medications are completed. A Variable Copay Network Pharmacy will communicate with you each month on reminders of your shipment and verification of address.

Variable Copay requires enrollment. Enrollment in Variable Copay is quick and simple. Call the member number on your Benefits ID card to speak with a dedicated Variable Copay Support Team.
